

ANTI x BULLYING CONFERENCE
NOVEMBER 5, 2018
RIVERSIDE CONVENTION CENTER

WORDS HURT

**Actions
Heal**
**Don't Let
Another
Child Suffer**

No longer is bullying confined to the schoolyard where children could previously escape the pressure of bullies and retreat to a safe place called home. With the rise of the Internet come new ways for students to bully others nonstop. Bullying has become an epidemic that affects not only children, but parents, teachers and the community. Bullying has serious, adverse educational effects, and students who are targets often experience extreme stress that can lead to symptoms of physical illness and a diminished ability to learn, according to the National Education Association. This translates into increased absenteeism and impaired performance, as indicated by decreased test scores and sadly, may even lead to suicide.
